

of San Diego County/Aging & Independence Services

GUARDIAN ANGEL PROGRAM

George G. Glenner Alzheimer's Family Centers, Inc.® offer volunteer opportunities for kind, compassionate individuals interested in making a difference in the life of seniors in San Diego County.

The mission of our program is to recruit, train, educate and connect volunteers with isolated seniors residing in partnered long-term care facilities throughout San Diego County.

Residential communities provide excellent care, but many residents have friends and family members that live out-of-state and are not able to visit as much as they would like. Our **Guardian Angels** fill that gap and provide a wonderful opportunity for companionship.

Additional opportunities to facilitate Caregiver Support Groups are also available.
